What is this Product ?

Product Type:

Undertaking for Collective Investment in Transferable Securities (UCITS) Fund.

Investment Objective :

The AQA Colombo Extra Return Fund (the "Sub-Fund") aims to generate absolute return by emphasising on the preservation of capital in the medium term.

Maturity:

The Duration of the Sub-Fund is indefinite.

Income:

This Class is distributor class, so the Directors shall distribute dividends in accordance with the Company's Dividend Policy.

Buying and Selling of Shares:

You may buy and sell Class EUR C Retail Shares (this "Class") on each business day (Monday to Friday other than public and bank holidays in Malta) subject to certain cut off times.

Currency:

The Class in the Sub-Fund is denominated in EUR.

Target Investors:

The Sub-Fund is generally suitable for investors willing to hold their investment for a minimum period of five years.

Investment Policy:

The Investment Manager ("We") are expected to follow a strategy generally based on direct and/or indirect investments in traditional listed or unlisted equities and/or options following "carry" strategies with the aim of obtaining returns comparable in the medium term, to those in the stock market but with lower volatility exposure. The Fund may be extensively exposed to financial derivatives which may be linked amongst others to equities, currencies and indices with the aim of achieving more efficiently the Sub-Fund's investment objective through hedging undesirable factor exposures. Derivatives may however also be used for investment purposes. The Fund may also invest in futures. The Sub-Fund may further invest in over the counter derivatives including but not limited to currency forwards and Credit Default Swaps (CDS). The underlying of such derivatives may be any type of eligible underlying in terms of the UCITS Directive. OTC derivatives will be entered into with Approved Counterparties.

Though asset allocation may vary depending on Investment Manager's expectations and available opportunities, the Sub-Fund will generally aim to invest a minimum of 10% of its net asset value in equities, equity-related securities (such as convertible bonds, equity linked notes, financial derivative instruments having equities as underlying and warrants on equities) and a maximum of 90% of its net asset value in any kind of bonds, money market instruments, cash and cash equivalents. Furthermore, the Sub-Fund may invest up to 20% of its NAV in SPACs which will be monitored and invested in mainly during the period prior to a target announcement.

The Sub-Fund may also invest to a maximum of 10% of its assets in units or shares of other UCITS or CISs including Exchange Traded Funds for hedging or investment purposes. The Sub-Fund will not invest in CIS managed by the Investment Manager.

Furthermore, the Sub-Fund may be invested in listed or unlisted bonds which will generally have a duration of 3 years and on average a credit rating above "B" by S&P/Fitch or "B2" by Moody's or a Bloomberg composite of B. The Sub-Fund may however hold assets with different duration and rating as well as hold unrated bonds. The Sub-Fund will invest globally with no industry, geographic, market capitalization or market sector bias. However, it will likely focus on developed markets as defined by the MSCI. The fund may also invest up to 5% of its total assets in selected emerging markets including Turkey, Brazil, India, South Africa, Hong Kong, Singapore, China, Mexico, Argentina.

For cash management purposes, to meet operating expenses or redemption requests we may hold cash and cash equivalents on an ancillary basis pending investment in accordance with its Investment Policy.

The Sub-Fund will not invest in ABS, MBS, COCO bonds, structured products or exchange traded commodities. The Sub-Fund is being actively managed.

Further information about the Sub-Fund can be obtained from the Prospectus and related offering supplement as well as the latest annual and half-yearly financial reports available free of charge in English as well as in other languages of countries where the Sub-Fund is registered.

The NAV per Share will be published on the website and/or platform of the most recognised data providers. The NAV per Share will also be available at the offices of the Administrator and the Investment Manager

What are the risks and what could I get in return?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early or you may have to pay significant extra costs to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

Duplication of Fees – Given that the Sub-Fund may invest in other collective investment schemes, there may be a risk of duplication of fees and commissions charged against the capital of the Sub-Fund.

Exchange Rate Risk – The Sub-Fund may invest in assets denominated in currencies other than Euro, thereby exposing the Sub-Fund to fluctuations in exchange rates.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Charges and Expenses - Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

There is no minimum guaranteed return. You could lose some or all of your investment. (see the section ‘what happens if we are unable to pay you’)

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Sub-Fund may also be exposed to additional risks which are not adequately captured by the risk indicator and may cause additional loss.

This Risk and Reward section is not a guarantee that it will remain unchanged. More information regarding risks may be found in the “Risk Factors” section in the Company’s Prospectus.

Performance Scenarios

The table below shows the money you could get back over the next 5 years, under different scenarios, assuming an investment of EUR 10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation which may also affect how much you get back.

Recommended Holding Period 5 years		Investment EUR 10,000		
Scenarios		1 year	3 years	5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress Scenario	What you might get back after costs	7,496.76	7,294.04	6,601.58
	Average return each year	-25.03%	-9.98%	-7.97%
Unfavourable Scenario	What you might get back after costs	7,794.77	5,870.39	3,896.95
	Average return each year	-22.05%	-16.27%	-17.18%
Moderate Scenario	What you might get back after costs	11,160.52	8,326.48	7,872.74
	Average return each year	11.61%	-5.92%	-4.67%
Favourable Scenario	What you might get back after costs	12,387.76	11,748.02	14,847.02
	Average return each year	23.88%	5.52%	8.23%

What happens if AQA Capital Limited is unable to pay out?

The Sub-Fund is a segregated portfolio whose assets and liabilities are to be treated as a patrimony separate from the assets and liabilities of each other sub-fund and of the Company. The Classes of the Sub-Fund do not constitute segregated portfolios. Please refer to the Prospectus for further details.

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs Over Time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

The costs are based on the following assumptions:

- In the first year you would get back the amount that you invested (0% Annual Return).
- For the other holding periods we have assumed the product performs as shown in the favourable scenario.
- Investment amount of EUR 10,000.

Investment EUR 10,000			
Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs in EUR	845.32	2157.52	3860.53
Annual Cost Impact per annum	8.45%	6.45%	6.05%

(*) 'This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.23% before costs and 2.18% after costs.'

Composition of Costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period. It also shows the meaning of the different categories.

This table shows the impact on return per year			
One-off costs	Entry costs	3.00%	The % of the amount you pay when entering this investment.
	Exit costs	0.00%	The % of your investment before it is paid out to you.
Ongoing costs	Management fees and other Administrative and Operating costs	5.01%	The % of the value of your investment per year. This is an estimate based on actual costs over the last year.
	Transaction costs	0.45%	The % value of your investment per year. This is an estimate of the cost incurred when we buy and sell the underlying investments from the product. The actual amount will vary depending on how much we buy and sell
Incidental costs	Performance fees & Carried Interest	0.00%	The impact of the performance fee, which is 15% of the Net Return of the Sub Fund on the appreciation in the Net Asset Value of the Sub-Fund over the previous High Watermark ("HWM").

How long should I hold it and can I take money out early?

Recommended Holding Period (RHP): 5 years

The recommended holding period is based on our assessment of the risk and reward and time frame in which it is expected to achieve the investment objective of the Sub-Fund. Your specific risk appetite needs to be considered for any investments made. You may receive less than expected if you cash in earlier than the RHP. There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.
